

Openings

This page lists, day by day, the exhibitions and art related events opening this week in **Belgium, France, Luxemburg, Monaco and Switzerland.**

The events are classified for each day of the week by country, town and event title. The dates mentioned are those of the **opening to the general public** (vernissages by invitation may be scheduled at different dates, before or after). The events titles are the original ones chosen by the organizers and are not translated. Town names follow the local spelling.

A link to the site of the organizer or the event itself allows you to get immediately further information on the events you are interested in.

This information is given by the galleries and institutions themselves under their own responsibility. *If you are an art professional from these 5 countries and wish to enter your information on these page please register by clicking on the "Art Professional? Enter your openings" button.*

You can search this list day by day, for the five countries, by clicking on the corresponding day, or select the country of your choice, by clicking on its area or name on the map.

If you wish to find a **previous opening**, our key-word search engine allows you to find it. Simply enter a word from its title or of the organizer name.
